

Student Undergraduate Funding Change in Degree/Programme Appeal

The financial aid or Gap funded applicant is submitting an appeal to change their programme of study. To evaluate the request, we require academic information.

The N+ rules will still apply to the students funding and therefore we need to understand if the change will extend the duration of study.

Note

- a. if the student started studying before 2018 then funding rule is N+2
- b. If a student started studying in 2018 or later then funding rule N+1
